SUMMARY

Problem solver with 3+ years of experience in software engineering and 6 years of related web development for small and medium-sized businesses. As a dedicated problem solver, I display an expert skill in Javascript and supporting languages/libraries/frameworks that solve real-world problems through code. Throughout my time at LifeMD, I have gained hands-on experience in industry-standard development, which I'm looking to apply to a growing business like CareConnectMD.

SKILLS

- React, TypeScript, Next.js, HTML5, CSS3, Javascript, Browser testing/debugging, Node.js, Python, MySQL, Linux command line, jQuery, Google Analytics, Photoshop

EXPERIENCE

Associate Front-End Engineer

[LifeMD](#)

February 2021 – May 2023

- Worked on a team composed of developers, devOps engineers, product managers, Q/A testers and reported to the Director Of Engineering. My responsibilities were to build features and reports on internal patient care applications.
- Automated HTML transactional email generation and maintenance which greatly improved the production and maintenance of branded emails.
- Improved speed of prescription handling by building a prescription PDF generator using PHP to take HTML and convert it to a downloadable PDF.
- Implemented cloud storage with our patient phone call recordings from Five9 and saved audio files to LifeMD's AWS S3 bucket.
- Improved call monitoring for management by creating a report that displays tables of patient call data including an audio player to listen to customer service rep phone calls.

Bootcamp Student

[LearningFuze](#)

July 2020 – February 2021

- Programmed 300+ hours in a simulated agile work environment for an accelerated web development program.

Front-End Web Developer

[Eagle Industrial Group](#)

March 2018 – July 2020

- Built three functional and visually appealing online stores in collaboration with various 3rd party

contractors and the Director of Marketing.

- Developed an automated email marketing campaign that offered rack installation services to new customers which resulted in an additional 200-300 installation inquiries per month.
- Generated over 20 blog articles for the purpose of optimizing SEO of the garage storage division.
- Involved in building trade show banners and brochures for promotion
- Produced batch and automation scripts with Photoshop and Google Sheets to speed up production of print advertisements.

Webmaster

[SCUBA.COM](https://www.scuba.com)

July 2014 – July 2016

Scuba.com has been selling scuba and snorkeling gear from hundreds of brands for over 20 years. As one of the first internet-based diver supply companies, Scuba.com has distinguished itself as one of the go-to places to purchase scuba gear because of the experienced scuba industry professionals on their team.

- Collaborated with senior developers to implement CSS and HTML updates to product and landing pages.
- Deployed 3 promotional email blasts per week.
- Designed and developed marketing assets such as online videos, quizzes, contests, print ads, blog articles and landing pages.
- Provided technical support to PC users.

PROJECTS

Job Getter - Track and send customized emails to individuals who are hiring at their respective companies.

- Full-stack web application used to track and contact employers [Nuxt 3 + MongoDB]
- [GitHub](#)

Chat RRG - Chat GPT clone

- Uses OpenAI API - I use this instead of a paid subscription to OpenAI because it saves money on development costs. [Next.js + MongoDB]
- [GitHub](#)

EDUCATION

Full-Stack Web Development Program,

[LEARNINGFUZE](https://www.learningfuze.com)

- Programmed 10-12 hours a day for 14 weeks (800+ hours) in a simulated Agile work environment

Bachelor of Science in *Visual Communication Design*, Electives taken in *Marketing*

[SAN FRANCISCO STATE UNIVERSITY](https://www.sfsu.edu)

- Hosted a weekly 'Critique Hour' where students in the design department could give and receive feedback on designs.
- Worked alongside various campus departments to build them marketing assets as a member of A.I.G.A. (American Institute of Graphic Arts) student organization.
- Designed print and web graphics for the Division of Student Life under the Dean of Students.
