

## Software Developer

Lake Forest, California • ryangriego@gmail.com • (949) 310-8534

## Profile Summary

---

- Talented Full Stack Developer with a wealth of experience delivering scalable web applications, building intuitive user interfaces and optimizing back-end processes, within fast-paced environments.
- Extensive technical skill set, with mastery in **JavaScript/TypeScript**, **React & Vue.js**, **Node.js**, and **PHP**, along with technologies such as cloud services such as **AWS** and **CI/CD**, enabling efficient and scalable product development.
- Impactful contributions during each phase of the **Software Development Life Cycle**, including optimizing **MySQL** queries for report accuracy, designing responsive user interfaces, and systematically deploying new features through automated **CI/CD** pipelines.
- Engaged collaborator with strong interpersonal skills, able to influence and **align multiple teams** with conflicting priorities to drive progress under aggressive time constraints.

## Technical Skills

---

Languages: **JavaScript**, **TypeScript**, **PHP**

Databases: **PostgreSQL**, **MongoDB**

Frameworks & Libraries: **React**, **Next.js**, **Vue.js**, **Nuxt**, **Node.js/Express.js**

Cloud Services & DevOps: **AWS (EC2, Lambda, S3)**, **CI/CD**, **Git**

## Work Experience

---

### LifeMD

Huntington Beach, CA

#### Associate Front-End Engineer

Feb. 2021 - May 2023

- Participated in the technical effort by optimizing internal reporting, back-end processes and user interfaces, utilizing technologies such as **JavaScript** and **Vue.js**, **PHP**, **MySQL**, and **AWS**.
- Revamped the user interface by integrating **Vue.js**, employing **Vuetify** and reusable components, which yielded an application performance boost.
- Developed performant **MySQL** queries to supply data for internal reporting, thus improving report accuracy.
- Enhanced the efficiency of prescription generation by developing a PDF generator with **PHP**, transforming **HTML** into downloadable PDFs using **TCPDF**.
- Developed a Cron job with **Bash**, leveraging **CRON scheduling**, automated scripts and **AWS S3**, which systematically downloaded and archived the previous day's patient phone call recordings from **Five9**, storing them securely in LifeMD's **AWS S3** bucket.
- Developed and deployed a call monitoring system, featuring patient call data tables and audio playback for conversation review, using **SQL** and **JavaScript**, **Vue.js**, successfully enhancing data visualization and interaction analysis.
- Collaborated within a cross-functional team including the **Admin Portal Team**, the **Director of Engineering**, and the **CTO**, employing **Agile** practices, including daily stand-up meetings and weekly sprints, to effectively deliver under tight deadlines.
- Delivered **technical presentations** to the team on new designs, features and development plans. Maintained a high engagement in meetings, asking calibrated questions to reach alignment and optimize for delivery.

## Eagle Industrial Group [↗](#)

Rancho Santa Margarita, California

### Front-End Web Developer

Mar. 2018 - Jul. 2020

- Developed three high-performing ecommerce platforms using **HTML5**, **CSS3**, **JavaScript**, and **WordPress**, enhancing user interface designs with **Bootstrap**, and integrating seamless payment gateways with **WooCommerce**.
- Implemented **cost-reduction strategies** by assuming responsibilities previously held by a higher-paid contractor, utilizing in-house expertise to manage web development, which significantly lowered ongoing service charges.
- Engineered an automated email marketing campaign featuring **Mailchimp**, incorporating data segmentation and personalized email workflows with content focusing on rack installation services, thereby generating between **200-300** additional installation inquiries monthly.
- Implemented batch and automation scripts using Adobe Photoshop and **Google Sheets**, accelerating the production process of print advertisements and achieving a throughput increase of **40%**.
- Created over **20 SEO**-optimized blog articles to enhance the online visibility of the garage storage division and redesigned sales materials, including presentations and advertisements, for both print and web formats.

## Eight Horses [↗](#)

Irvine, California

### Front-End Web Developer (contract)

Sep. 2017 - Feb. 2018

- Collaborated with a team of copywriters, graphic designers and developers to produce website content and emails for a large network of local and national clients.
- Developed and maintained web pages using **WordPress**, **Shopify**, and **BigCommerce**, incorporating plugins for **Google Maps**, chat functionality, and **SEO**, enhancing user interaction and site visibility.

## Scuba.com [↗](#)

Irvine, California

### Webmaster

Jul. 2014 - Jul. 2016

- Saved management **3** hours per week with promotional email campaigns, product combinations, themes, and subject lines, driving increased site traffic and open rates.
- Developed and delivered a range of marketing and IT support materials including **1** online video, **3** quizzes, **4** contests, **5** print ads, and **20+** blog articles; provided IT support to in-office Windows PCs, reducing downtime and improving productivity.

## Software Projects

---

### Job Getter [↗](#)

Dec. 2023 - Aug. 2024

- Implemented a job search optimization platform by developing tools with **Nuxt 3**, incorporating **PhantomBuster for web scraping**, **DOM manipulation**, and **fetch requests**, enabling customization of **HTML** emails and generation of QR codes that link to personalized landing pages featuring introduction videos.

### Chat RRG [↗](#)

Jan. 2024 - Apr. 2024

- Deployed a **ChatGPT** replica utilizing **MongoDB** to securely store user conversation histories, implementing privacy measures and exploring GPT models, while optimizing for data integrity.

## Education

---

### LearningFuze [↗](#)

Irvine, CA

### Full-Stack Web Development in Program

Jul. 2020 - Feb. 2021

### San Francisco State University [↗](#)

San Francisco, CA

### B.Sc. in Visual Communication Design

Aug. 2011 - Jun. 2013
