PROFESSIONAL EXPERIENCE

EAGLE INDUSTRIAL GROUP, INC

March 2018 – July 2020

Front-end Web Developer

Web design & development, print / social media / email marketing, technical support.

- Built three functional and visually appealing online stores using Wordpress in collaboration with various 3rd party contractors and the Director of Marketing.
- Developed an automated email marketing campaign that offered installation services to new customers which resulted in an additional 400+ installation inquiries per month.
- Increased online sales by 40% with the launch of the new stores compared to the previous year.
- Increased average site traffic by 15% within the first 3 months and grew to an average of 30% over the subsequent months after the first year due to better on-page SEO practices.
- Generated over 20 blog articles for the purpose of optimizing SEO of the garage storage division.
- Created back-end API endpoints from SQL databases to build a dynamic order-tracking system.
- Produced batch and automation scripts with Photoshop and Google Sheets to speed up production of print advertisements.

EIGHT HORSES ADVERTISING AGENCY

September 2017 – February 2018

Front-end Web Developer

Responsible for page updates and plugin implementation for a variety of websites built with Wordpress, Shopify and BigCommerce.

- Worked within a robust, sustainable network of clients from local cities, leveraging strong listening, presentation and organization skills to keep up with deadlines.
- Created a Firebase project to bridge a realtime database to Wordpress chat plugin.
- Adapted webpages built with BigCommerce to be responsive with CSS3 Media Queries.

- Made use of Basecamp to facilitate collaboration between copywriters and graphic designers to juggle multiple clients and deadlines.
- Posted over 20 blog articles for the purpose of optimizing SEO.

SCUBA.COM

July 2014 – July 2016

Webmaster

Web and print design, social media and email marketing, technical support.

- Worked with senior developers to implement CSS and HTML updates to product and landing pages.
- Deployed 3 promotional email blasts per week.
- Designed and developed marketing assets such as online videos, quizzes, contests, print ads, blog articles and landing pages.
- Provided technical support on company Windows PCs.

RECENT APPLICATIONS

Books For Your Profession, Search app to find out the top 5 most recommended books for a user's profession.

[Live](#) | [GitHub](#)

- Built a **React** application using **PostgreSQL**, **Node.js**, **Express JS**, **Webpack** & **express-session** to find books and post a new book to the books table after the user added a book to their book list.
- Created API endpoints using **Express JS** to capture data from the **Google Books API**.
- Added **React-Toastify** to handle user success/error notifications
- Implemented a login function to enable users to create, save, and delete items from their list.

GameKnight, A full stack Node.js and React e-commerce demo store.

[Live](#) | [GitHub](#)

- Constructed a fully-responsive shopping cart CRUD application with **React**, **Node**, **Express JS** and **Webpack**.
- Implemented an image carousel as a **React Component** for each product.
- Compiled JSX code using **Babel** to enable backwards compatibility in older browsers.

EDUCATION

Accelerated Web Development Program, Full-Stack Web Development

[LEARNINGFUZE](#)

- 600+ hours of hands-on coding in a simulated workplace environment.

BS Visual Communication Design, Emphasis in Marketing

SAN FRANCISCO STATE UNIVERSITY

- Implemented and hosted a weekly *Critique Hour* where students in the design department could give and receive feedback on any design work.
- Reached out to various campus departments for design work opportunities as a member of A.I.G.A. (American Institute of Graphic Arts) [student organization](#).
- Designed print and web graphics for the [Division of Student Life](#) under the Dean of Students.
